1. Representation from M/s NSL Textiles Limited, Kunchalavaripalem, Guntur District dated: 13.06.2017.
2. From the ENC(I),Water Resources Department, Vijayawada Lr. No.ENC (I)/EE/DEE1/AEE2/IWS - NSL Textiles, dt: 29.12.2017.

O R D E R

In the reference 1st read above, the M/s NSL textiles Limited, Guntur District has requested the Engineer-in-Chief(Irrigation) for permission to draw 50000 litres water per day from Guntur Channel for drinking water needs of the employees working in their firm at Budampadu near Guntur.

2. In the reference 2nd read above, the Engineer-in-Chief (Irrigation), Water Resources Department based on the report of the Chief Engineer, Krishna Delta System, Vijayawada has recommended the Government for drawl of 0.02 Cusecs of water from Guntur channel at Km 31.900 by M/s NSL Textiles Limited, Guntur District for a period of five (5) years subject to availability of water for consumptive use with usual terms and conditions and subject to the concurrence of District Collector and the clearance of Pollution Control Board and subject to adherence of the instructions issued in Government Memo. No. 2772, Water Resources (Reforms) Department, dt: 30.09.2015 and the special conditions listed below:

Conditions:

i) The Water can be spared based on the availability of water in the River/ Reservoir / Canal.

ii) The water drawn from the Source should be utilized for the purpose for which permission is granted.

iii) The firm has to pay water charges for the estimated quantity in advance as fixed by the Department.

iv) The consumptive utilization calculated per day fixed by the Department should not exceed under any circumstances.

v) Digital Water meters and measuring devices should be installed at the pump house by the industry at their own cost to measure the water consumed and should be made available to the Water Resources and Revenue Department authorities at all times for inspection.

(PTO)

vi) The firm should pay security deposit fixed by the Department for which permission is granted.

vii)The firm should pay water royalty charges as per the existing rates @ Rs.5.50 /1000 gallons fixed by the Government and subject to revision by the Government from time to time.

viii)A detailed plan showing the location of intake arrangements, pump house, alignment of pipe line and conveyance system should be furnished to the department, for approval.

ix) The industry should make its own arrangements for sufficient storage of water during non supply period.

x) The Water Resources Department is no way responsible for non supply of water due to any reasons.

xi) The entire cost of construction of pump house, pipe line etc., should be borne by the industry only.

xii) The industry must strengthen the river margin on either side of the proposed off take point to avoid erosion of bank and to protect the existing river margins as directed by the Department.

xiii)The Department is no way responsible for any damages that may occur to the off take point and pump house during floods.

xiv)This Department is not responsible for any dispute that arises with neighboring industries and public and any legal matters.

xv)The firm should not create any objection for improvement /Modernisation works to the said Reservoir in future, and they have to relocate the pumps if necessary, with their own cost.

xvi)The industry should abide by any other conditions laid by the Department at later date.

xvii) The Water Resources Department reserves the right for cancellation of the permission without assigning any reasons thereof.

xviii)The annual requirement of water can be spared from River/Reservoir/ Canal. No more drawl shall be permitted, Priority shall be given to Drinking water & irrigation, when reservoir receives lean flows.

xix)The storage tank should be constructed - sufficient to store the requirements for non Supply period for water drawl from River/ Reservoir/ Canal.

xx) The point of drawl should be as fixed by the Department.

xxi)The company holds no right over the water permitted to draw. Priority will be given to drinking & irrigation needs.

xxii)The concerned Executive Engineer will be responsible for enforcing the conditions.

(Continued…p.3)
